

EXACTLY WHAT IS WASTE, ANYWAY

WASTE:

Any material that usually is discarded, or has no economic value

CHARACTERISTIC WASTE: Any waste that is:

- Ignitable
- Corrosive
- Reactive
- Extraction procedure creates toxic by-product

LISTED WASTE:

A waste containing compounds listed on EPA lists F, D, or U (hazardous waste, toxic waste, acutely hazardous waste, respectively)

STATUTORY WASTE:

Anything that contains substances not currently federally regulated under the “characteristic”, or “listed”, waste statutes, above
